EXPERIENCE

Senior Technical Writer

03/2025 - 10/2025

Randstad India Private Limited / CISCO Systems

Bengaluru,
Karnataka, India

Tools Used: Postman, Swagger, ReadMe API, JSON, Python, Oxygen XML Editor, CXone Expert, Madcap Flare, Markdown, AsciiDocs, GitHub, JIRA, Snagit.

- Designed and managed API reference documentation for Meraki platforms in collaboration with software developers, ensuring technical accuracy and ease of integration.
- Developed and maintained comprehensive release notes, user guides, installation guides, and troubleshooting guides for Cisco Meraki products.
- Partnered with Product Owners and Technical Marketing Engineers to align documentation with product strategy, business goals, and customer requirements.
- Collaborated with Network Support Engineers to enhance troubleshooting guides using real-world incident data, diagnostic steps, and verified resolutions.
- Worked with Developers and Test Engineers to validate documentation content for completeness, accuracy, and technical consistency.
- Collected and incorporated cross-functional feedback to continuously improve documentation quality, structure, and usability.
- Coordinated with stakeholders to update content and reflect evolving product features, APIs, and cloud capabilities.
- Ensured documentation met Cisco standards for security, scalability, accessibility, and user experience in cloud-based networking and security services.

Technical Writer

05/2022 - 09/2024

ATONARP Micro Systems India Private limited

Bengaluru,
Karnataka, India

Tools Used: Postman, Stoplight API, JSON, Python, Oxygen XML Editor, Markdown, Madcap Flare, GitHub, JIRA, and Snagit.

- Developed comprehensive user manuals, online help, release notes, installation guides, API documentation, and system manuals for ASTON and ATON systems.
- Created detailed documentation for the ATONARP REST Data Services (ARDS) API, enabling developers to seamlessly access and integrate ATONARP database data.
- Collaborated with cross-functional teams, including developers and product managers, to define documentation requirements and implement effective content strategies.
- Produced, formatted, and published technical content in multiple formats (PDF and HTML) in accordance with ATONARP documentation standards.
- Conducted regular content audits and updates to ensure documentation accuracy and alignment with new software releases.
- Improved product understanding and usability through high-quality technical content tailored to end-user needs.
- Managed version control and maintained up-to-date documentation across product lifecycles.

Senior Technical Writer

11/2020 - 05/2022

Oracle Financial Software Services India Private Limited

Bengaluru,
Karnataka, India

Tools Used: Postman, swagger, Sphinx API, Python, JSON, YAML, Markdown, Adobe FrameMaker(Structured), Robohelp and Captivate, Office 365, Tortoise SVN, JIRA, Bug DB, and Snagit.

- Developed comprehensive technical documentation for the Oracle Enterprise Case Management System and Behavior Detection applications.
- Created Read me files, release notes, user guides, installation guides, and configuration guides for both on-premises and cloud environments.
- Maintained documentation style guidelines, developed project plans, and facilitated cross-functional meetings to ensure content accuracy and consistency.
- Provided consulting within the business unit to streamline the documentation process and improve overall content effectiveness.
- Designed and managed single-source documentation across multiple product lines to minimize duplication, reduce workload, and enhance usability for both writers and end-users.
- Quickly learned new technologies and managed multiple documentation projects independently and collaboratively while maintaining high-quality standards and meeting tight deadlines.
